

PMP exam preparation course

PMP

Mastery Framework

Day 1 session

Introduction & Foundations

What We Cover Today

Your Day-1 outcomes

Exam blueprint : what PMI actually tests (ECO)

Domain weightings : where your study time should go

Exam mechanics : 180 questions, timing, breaks, question types

Resource stack : ECO, PMBOK Guide, Agile Practice Guide

PMP mindset : how top answers are selected

Your plan : 13-week path and immediate next actions

Complete 13-week study plan

A structured roadmap aligned to the PMP Exam Content Outline, designed to move from fundamentals to exam readiness with consistent weekly progression.

87 daily lessons · 13 weeks · 7-10 hours/week

Month 1: Foundation
WEEKS 1-4

- Introduction & foundations
- Building a team (part 1-2)
- Starting the project

Month 2: Execution
WEEKS 5-8

- Starting project (part 2)
- Doing the work (part 1-2)
- Mid-point assessment

Month 3: Mastery
WEEKS 9-13

- Keeping on track
- Business environment focus
- Final review & exam week

Weekly breakdown

WEEK 1
Introduction & Foundations
- Day 1: PMP overview
- Day 2: Resources & ECO
- Day 3-4: Mindset parts 1-2
- Day 5: Review & practice

WEEK 2
Building a Team (Part 1)
- Day 8: Build team
- Day 9: Define ground rules
- Day 10: Negotiate agreements
- Day 11: Empower team members

WEEK 3
Building a Team (Part 2)
- Day 15: Ensure team trained
- Day 16: Virtual teams
- Day 17: Shared understanding
- Day 18-19: Review & practice

WEEK 4
Starting the Project
- Day 22: Determine methodology
- Day 23: Plan scope
- Day 24-25: Budget/resources
- Day 26: Review & practice

WEEK 5
Starting Project (Part 2)
- Day 29: Plan schedule
- Day 30: Plan quality
- Day 31: Integrate planning
- Day 32-33: Procurement/governance

WEEK 6
Doing the Work (Part 1)
- Day 36: Assess/manage risks
- Day 37: Execute for value
- Day 38: Communications
- Day 39-40: Stakeholders + review

WEEK 7
Doing the Work (Part 2)
- Day 43: Manage artifacts
- Day 44: Manage changes
- Day 45: Manage issues
- Day 46-47: Transfer + review

WEEK 8
Mid-point Assessment
- Day 50: WG3 review
- Day 51: WG3 practice test
- Day 52-53: Test + midpoint review
- Day 54: Mid-point practice

WEEK 9
Keeping on Track (Part 1)
- Day 57: Lead a team
- Day 58: Support performance
- Day 59: Remove impediments
- Day 60-61: Conflict + review

WEEK 10
Keeping on Track (Part 2)
- Day 64: Collaborate stakeholders
- Day 65: Mentor stakeholders
- Day 66: Performance through EQ
- Day 67-68: Review + practice test

WEEK 11
Business Environment
- Day 71: Compliance
- Day 72: Benefits/value
- Day 73: External changes
- Day 74-75: Org change + review

WEEK 12
Final Review
- Day 78: Full practice exam #1
- Day 79: Detailed review
- Day 80: Targeted revision
- Day 81-82: Full exam #2 + polish

WEEK 13
Exam Week
- Day 85: Light review + logistics
- Day 86: Exam day
- Day 87: Post-exam reflection
- Day 87+: Next-step planning

Weekly study schedule (7-10 hours)

M-F	Sat	Sun	87
Monday-Friday	**Saturday**	**Sunday**	**Total Lessons**
1-2h daily sessions	2-3h review + practice	Rest or light review	Complete ECO coverage

ECO-First Course Focus

- The **PMP Exam Content Outline (ECO)** is the exam blueprint.
- PMBOK Guide and Agile Practice Guide are supporting references.
- We train on **Domains, Tasks, and Enablers** exactly as tested.

Domain Weighting

- **People**: 42% (about 76 questions)
- **Process**: 50% (about 90 questions)
- **Business Environment**: 8% (about 14 questions)

Exam Format & Logistics

- **180 questions** total (scored + unscored pretest)
- **230 minutes** total testing time
- **2 optional breaks** (after Q60 and Q120)
- Approx. **1.3 minutes per question** pace
- Computer-based testing with on-screen tools

Implication: time control and decision discipline matter as much as content.

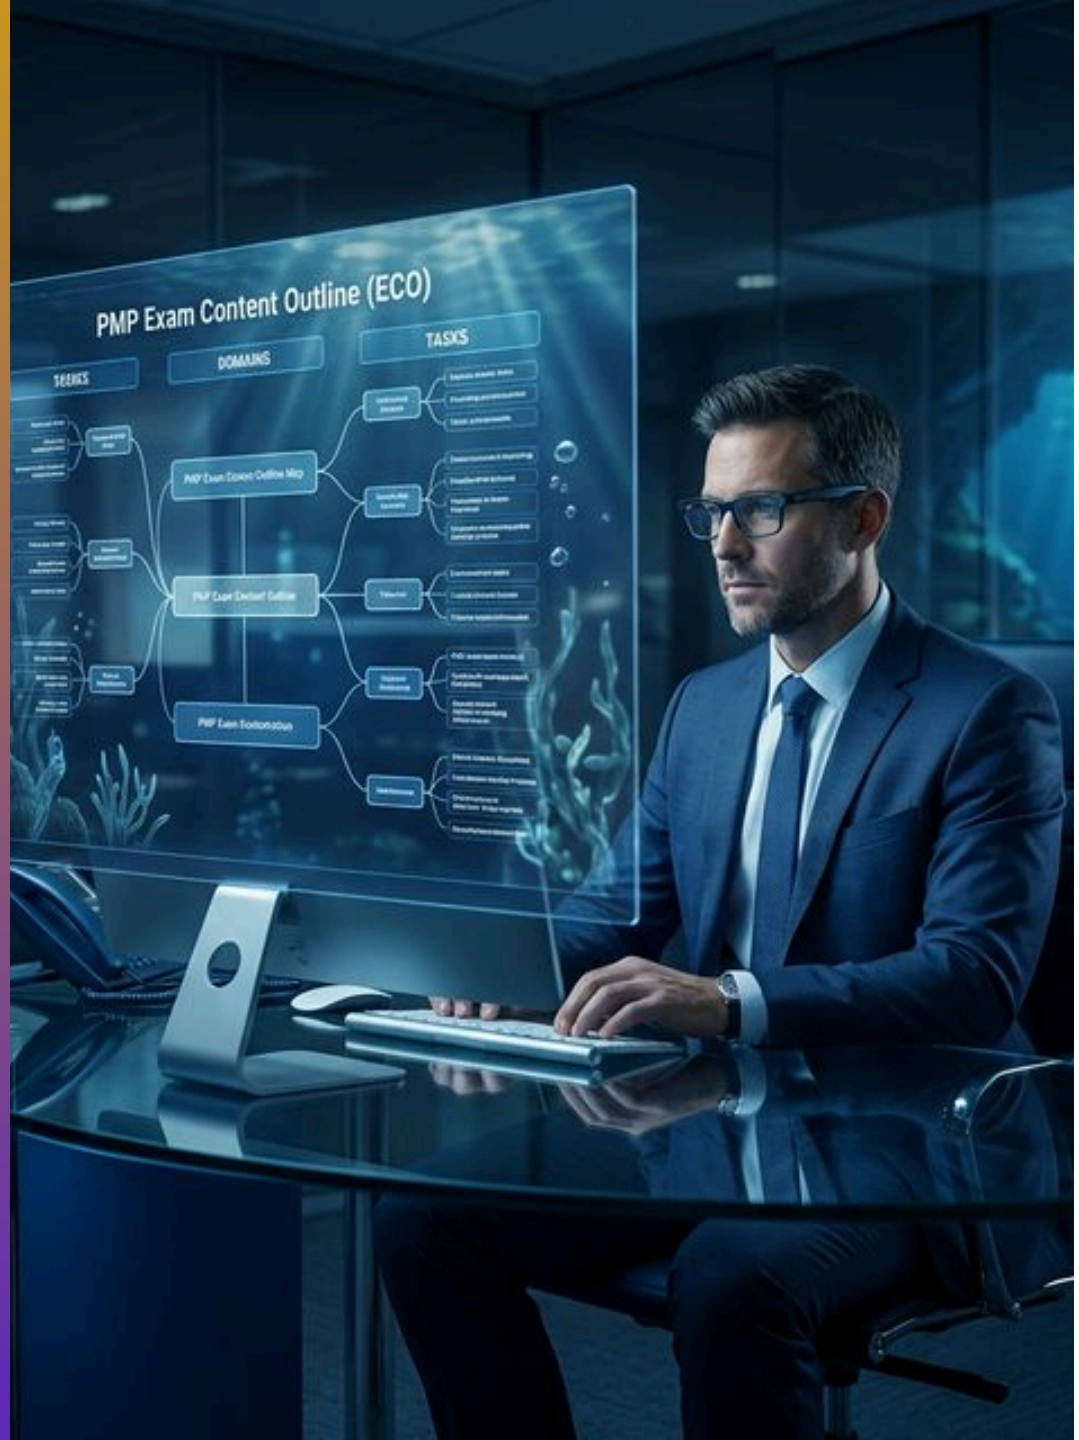

Question Types You Will Face

1. **Multiple choice** (most common)
2. **Multiple response**
3. **Matching**
4. **Hotspot**
5. **Fill-in-the-blank**

Response Strategy

- Read the scenario first, then the ask.
- Eliminate options that violate PMP mindset.
- Choose the **best next action**, not just a technically true action.

Essential Study Resources

- **ECO**: your source of truth for what is tested
- **PMBOK Guide (7th)**: principles, performance domains, methods
- **Agile Practice Guide**: agile and hybrid delivery logic
- **Course assets**: question bank, mock exams, templates, forum

Priority order: ECO -> question practice -> concept reinforcement.

The PMP Mindset (Core)

- **Proactive**: prevent issues before escalation
- **Value-driven**: optimize outcomes, not activity volume
- **Stakeholder-centric**: engage early, align continuously
- **Servant leadership**: support team performance and ownership
- **Ethical**: responsibility, respect, fairness, honesty

This mindset is the filter for situational questions.

13-week plan snapshot

- **87 total lessons** mapped to ECO priorities and weekly reviews
- **7-10 hours/week** rhythm: M-F short sessions + Saturday review
- **3-phase progression**: Foundation -> Execution -> Mastery
- **Exam-week finish** with logistics, exam day, and post-exam reflection

Consistency beats cramming. Complete each week before advancing.

Study Allocation Guidance

Match your study time to exam weighting:

- **50% Process**
- **42% People**
- **8% Business Environment**

If you study 12 hours/week:

- Process: ~6h
- People: ~5h
- Business Environment: ~1h

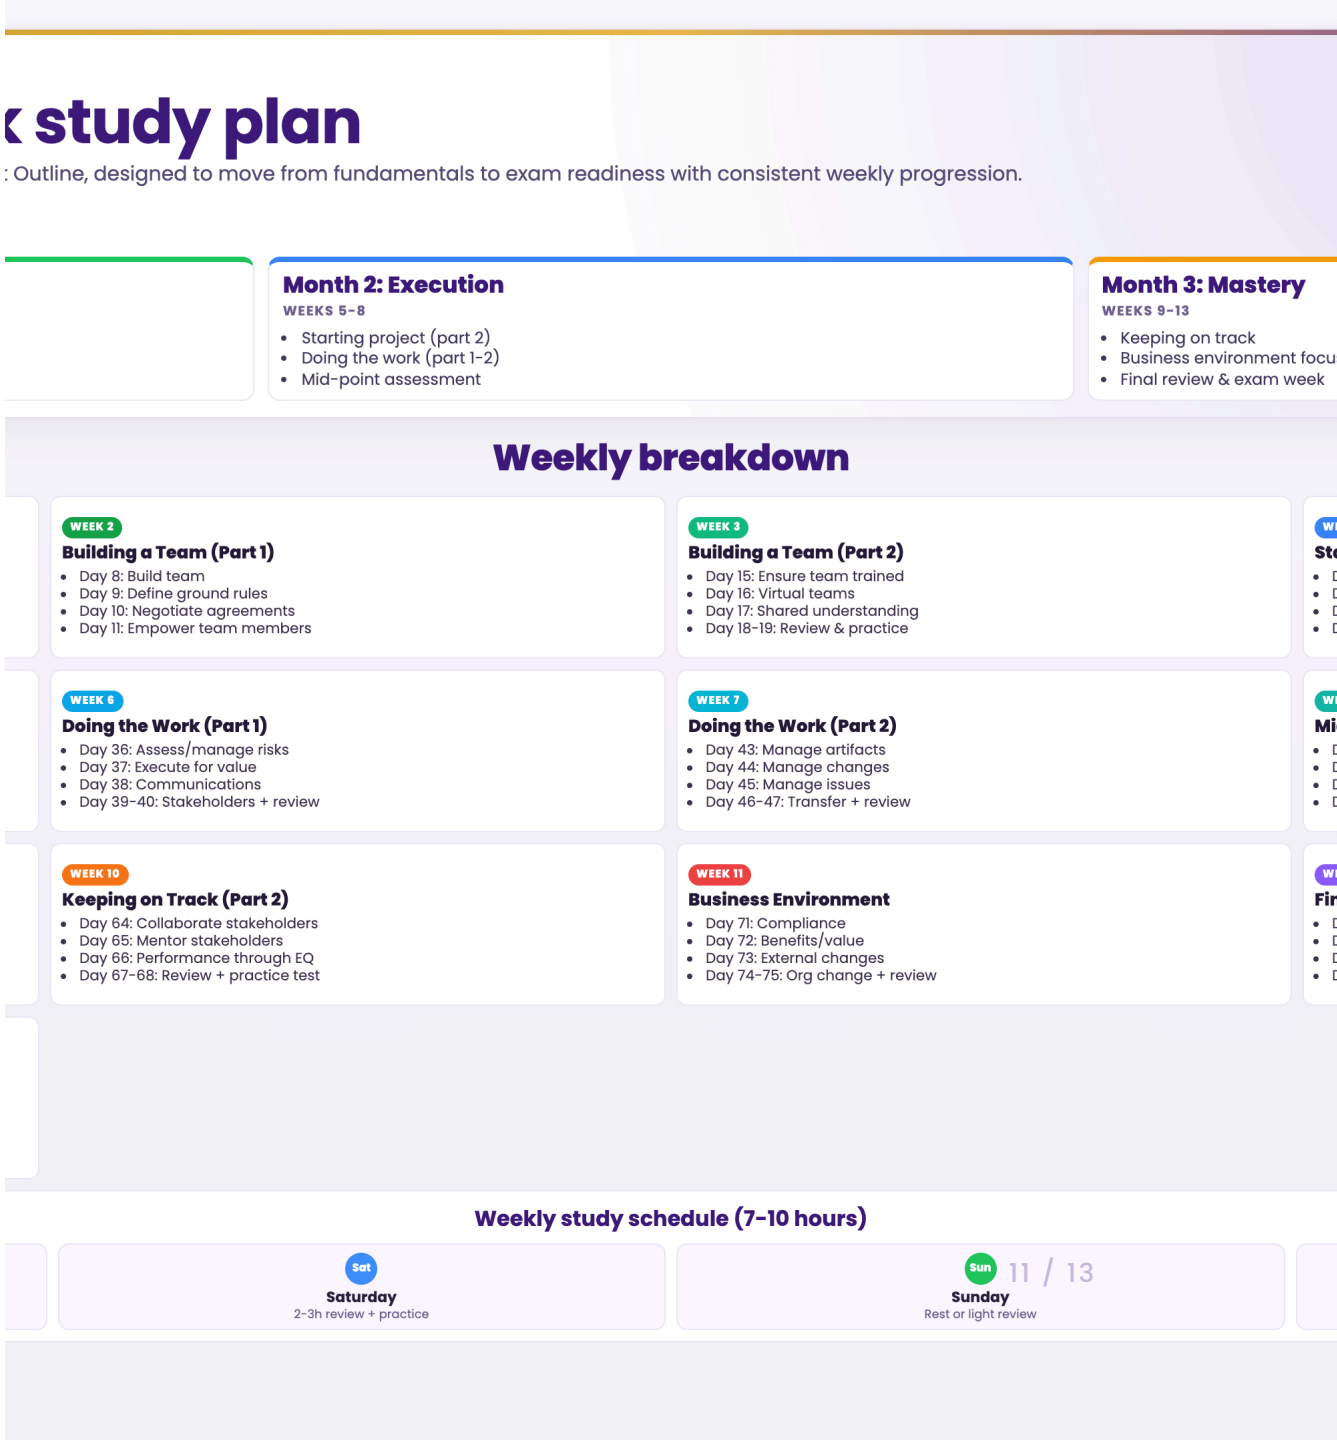

How to use this study system

Keep momentum without overload

- ✓ Follow the week sequence; do not skip review days.
- ✓ Use Sunday for light review and reset planning.
- ✓ Track your weakest domain every week and rebalance hours.
- ✓ Convert missed days into scheduled catch-up blocks next week.

PMP
MASTERY FRAMEWORK

Day-1 Action Checklist

Complete these before Day 2

- ✓ Download the latest official **PMP ECO** from PMI.
- ✓ Confirm your baseline study schedule for this week.
- ✓ Set your target exam window.
- ✓ Capture your top 3 motivations for certification.
- ✓ Identify one weak domain to prioritize early.

Q&A + Next Session

- Open questions on structure, scope, and expectations
- Clarify any confusion on ECO vs PMBOK usage

Tomorrow (Day 2)

- Resource deep dive
- How to use ECO, PMBOK, and Agile Guide together
- Setup of your repeatable daily study workflow
- Download the 13-week study calendar and mark your exam window today.
